

SAVE THE ENVIRONMENT
FROM POLLUTION & PEOPLE
FROM DISEASES BY PROVIDING
CLEAN & PURE WATER

ETP

EFFLUENT TREATMENT PLANTS

We Design, Manufacture, Supply, Erection and Commissioning Effluent Treatment Plant (ETP) on Turnkey basis for various types and natures of waste Waters, effluents which combines advanced physico-chemical treatment processes with tertiary polishing system for the removal of organic, inorganic, oil and grease, heavy metals & suspended solids.

PROCESS

- Reverse osmosis
- High rate anaerobic reactor
- Aerobic reactor
- Electro colour removal reactor
- Evaporator
- Ultra filtration
- Nano filtration
- Spray dryer
- Zero liquid discharge

FEATURES

- Foul proof technology
- Effluent with high TDS, Turbidity and dissolved impurities
- Heavy toxic metals
- Segregation of contaminants and treatment in each stage for removal and disposal of sludge
- Low reject high product RO
- Imported plate heat exchanger for high heat transfer Co Efficiency. No choking and scaling in evaporator as scale removal system installed before evaporator

APPLICATIONS

TEXTILE INDUSTRIES

CHEMICAL INDUSTRIES

PAPER INDUSTRIES

FOOD AND BEVERAGE

AUTOMOBILES
