

SOFTENERS

WATER PURIFICATION & FILTRATION

HEALTHY WATER SOLUTION FOR
COMMERCIAL & INDUSTRIAL

The ill effects of hard water are immense and most of the households are seriously facing it. Regular use of hard water leaves our hair unhealthy and makes it susceptible to hair fall. Also, hardwater has very bad impact on clothes, utensils, sanitary fittings and washing machine. Mars Aqua domestic water softener uses high quality ion exchange resin and it works up to 1500 ppm hardness level.

SOFTENERS

WATER PURIFICATION & FILTRATION

DOMESTIC

There are several benefits of choosing domestic water softener, it keeps spotless, cleaner and shinier crockery and utensils, it reduces consumption of detergent, soap, shampoo etc. It also preserves the life of appliances such as: Washing machines, water heater and laundry equipment. It prevents shower head, plumbing line from clogging due to deposition of calcium.

COMMERCIAL

Water softener made up of FRP vessel which ensures the longevity and keeps the vessel corrosion free. Commercial water softener works on ion exchange process. It has a multi port valve and uses high quality ion exchange resin and it works up to 1500 ppm hardness level. It is widely used in big housing societies, textile industries, swimming pools, sugar industries etc.

FEATURES

- Can Be Use up to 1500 TDS
- High Quality Pumps Used
- Less Rejection Ratio
- Easy to Regenerate

SPECIFICATIONS

- Raw water Feed Pump
- FRP Vessel
- Automatic multiport valve
- Salt Tank
- Filter medias

APPLICATIONS

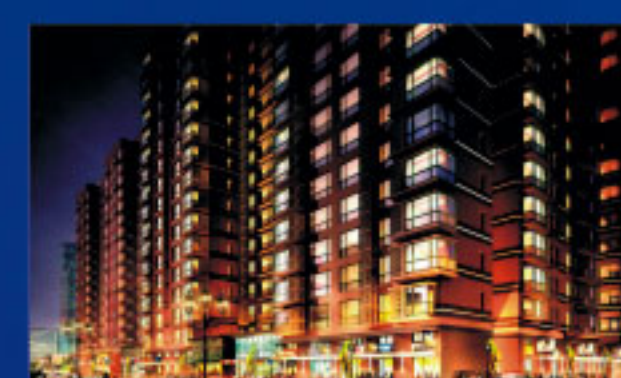

HIGH RISE BUILDINGS

VILLAS

HOTELS/RESORTS

COMMERCIAL BUILDINGS

HOSTELS
