SEWAGE TREATMENT PLANT

RECYCLE. REDUCE. REUSE.

www.marssolaraqua360.com

In MARS AQUA 360 sewage treatment plant, we are specialized in the latest developed STP technology which requires a very small closed space like 50-100 sq.ft in contrary to the old technology requiring vast open areas.

A must for high rise buildings, villas, commercial buildings, hotels, hospitals, educational institutions, hostels, industries, stadiums, and auditoriums.

FEATURES

- BOD reduction up to 97%
- Extremely compact & Good aesthetics
- Imported floating media (MBBR)
- Less sludge generation & Easy maintenance
- No need to maintain MLSS / Once through system

SPECIFICATIONS

- Sequence Batch Reactor (SBR)
- Membrane Bio Reactor (MBR)
- Anaerobic Reactor/Digester
- Packaged sewage treatment plants
- Dissolved air floatation DAF system
- UV disinfection
- Chlorinator
- Ozone system
